

## **September 8th City Council Meeting Summary**

The Kiwanis are putting on a Funfest at the South Lake Stadium on September 26, 2009

from 11am to 3:00pm.

Buy your apple pies at the Senior center next week. It not only appeases the appetite but helps out a good cause as well.

The Waterfront Advisory Committee introduced a new fishing line recycle program. Check and see the new tubes that are going to be available at fishing locations around the Shores to put in old fishing lines instead of other areas that can cause damage. If anyone is able to donate to facilitate all fishing destinations with the new tubes, it would be greatly appreciated.

The meeting was filled with proclamations and special land use with variance approvals.

Council fulfilled their obligation to the businesses of St. Clair Shores and unanimously approved all requests.

Constitution Week is celebrated Sept. 17-23. There is our great reminder of this very event right out of council chambers in St. Clair Shores City Hall.

The Snow Enforcement was the hot topic for the evening. It was talked about again since there was a study session the prior week back. It seems that the final say will be in early November. There will be more discussion of this next council meeting to hopefully put it to rest with some compromising language for both the residents and enforcement.

During audience participation residents voiced their concerns on fire pits, sidewalk replacement programs, and bidding on St. Clair Shores businesses to do the work.
